

A NEW DEVELOPMENT AT MPS

MPS has been producing customised seating and backrests for commode chairs for many years

MPS is now able to finish the seating and backrest with a flexible coating exclusive to MPS.

The unique character of this strong, flexible and completely liquid-proof coating guarantees full preservation of the functionality and comfort

Specialising in customised positioning equipment for people with disability

Because of this coating the seating and backrest is easy to clean and very easy to use in the daily environment.

Please contact MPS for more information.
